

My soon to be wife sent you an email regarding KLOVE and this issue is in my interest as well. As she indicated, Christians have become the "minority" because of those who are not Christian and they don't want to hear the Bible and The Word. They don't want "Christianity" in their faces but hey now.... don't we CHRISTIANS have the right to our beliefs as well? It wouldn't seem so in times like these! Please, I urge you to recognize the differences KLOVE has made in peoples lives! It is very enriching and is now the only station we listen to in our mini-van! Please, do not take away one of the best things that has happened to radio away. God Bless!
